

Newton Tony CE VC Primary School

In June 2018, fifteen children in our school participated in the Year 1 Phonic Screening Check. We are delighted to announce that **every child** who participated in the check **reached the required standard** or above. The standard is that a child can read a minimum of 32 out of 40 words during the check. These results place our school in the top 3% of schools in England. We have received a letter from the Minister of State for School Standards Rt Hon Nick Gibb MP congratulating our staff and children for outstanding achievement.

See our School Phonics results section for additional details.
