Welcome to the AccessArt Progression Plan for Primary Art 2020

Covering:

- Generating Ideas
- Making
- Evaluation
- Knowledge & Understanding
- Assessment Questions

Find <u>further information relating to the AccessArt Progression Plan</u> <u>for Primary Art here.</u>

The plan has been created by Paula Briggs and Sheila Ceccarelli of AccessArt. We gratefully acknowledge the expertise of Susan Coles, Paul Carney and Mandy Barret. We also acknowledge that we have taken and built upon some of the end of year descriptors from the NSEAD Curriculum document 2014.

www.accessart.org.uk

Important Information

We believe the curriculum we present via our **Exemplar Plans**, and our working methods shared via our **Progression Plan**, provide schools with a way to access a rich art education for pupils, of which schools can be proud.

The curriculum AccessArt shares is based upon our ethos which has developed over many years and which we believe has creative integrity. In the creation of the Progression Plan we have taken the opportunity to present schools with what we believe will be the best possible art education for their pupils, building and enhancing upon what already exists.

Schools should note that the majority of our resources are created by artisteducators. Some but by no means all were created in formal education settings. It is up to teachers to assess on an individual or school community basis if the resources are right for your school, and how they might best be adapted to suit your needs.

All resources cited in both the Exemplar Plans and the Progression Plan are examples only, and there are many more resources in the evolving AccessArt database which may suit your needs better.

AccessArt presents our work to schools in good faith, but we cannot guarantee and are not responsible for the way the approach is received.

Year 1

Year 2 Making

Painting

By the end of Year 2 Children should be able to...

Try out a range of materials & processes and Recognise they have different qualities

Use materials purposefully to achieve particular characteristics or qualities

Be excited by the potential to create.

Understand that art is different to many subjects at school: through art, they can invent and discover

Deliberately choose to use particular techniques for a given purpose

Develop and exercise some care and control over the range of materials they use

Teachers should:	Make simple sketchbooks as a way to create ownership
Balance time in which you sensitively	from offset <u>making</u> <u>elastic band</u> <u>sketchbooks</u>
model a technique, with plenty of time for pupils to enjoy open- ended exploration, and project-	Explore how to create space and places within the sketchbook to help develop sketchbook approach to include collecting, making drawings on different surfaces, and on different shapes of
based learning	paper. <u>taking</u> ownership of sketchbooks

Sketchbooks

Continue to familiarize with sketchbook / drawing exercises. Let children describe how to undertake the ones they know as means of recap/reminder and introduce new ones. drawing exercises

Develop mark-making skills through /ay experimentation with various drawing media: pencil, graphite, chalk, soft pastel, wax and charcoal. Guide to ate drawing materials

Drawing

Explore a variety of drawing starting points (stimuli), including close looking via observation from primary & secondary source material, drawing from memory and imagination. These might include

figurative, still life and landscape subject matter for drawings

Use drawings as basis for collage minibeast project

Continue to mix colours experientially (i.e. encourage pupils to "try and see"

Revisit colour mixing and understand relationships of primary and secondary colours and apply colour mixing skills to a project e.g Inspired! and exploring colour and paint!

Explore painting on different surfaces, such as fabric and different scales dressing up as fossils

Use new colour mixing knowledge and transfer it to other media, e.g.soft pastel colour mixing in drawing project or plasticine painting with plasticine

Explore simple Explore how 2d can mono printing become 3d though "design through techniques using carbon paper, using making". Pls see observational design in the drawing skills and national curriculum mark making skills explored through Cut simple shapes drawing (column 2), from card and use and colour mixing them to construct skills (column 3) e.g. Monoprinting with oil pastel

Printmaking &

Collage

architectural forms. Use drawn, collaged and printed elements as surface decoration for the architectural maquettes. be an architect

3D, Architecture &

Digital Media

Use digital media (film and still photos) to create records of models made, including walkthrough videos of the inside of the architectural spaces

Access		By the end of Year 2 Children should be able to		
Evaluating Teachers should: Be aware of the importance of sensitively unearthing intention, which may not always be apparent in end result	As a Class Enjoy listening to other peoples views about artwork made by others. Feel able to express and share an opinion about the artwork.	In Small Groups Share work to others in small groups, and listen to what they think about what you have made. Take photos of work made so that a record can be kept, to be added to a digital folder/presentation to capture progression. Use documenting the artwork as an opportunity for discussion about how to present work, and a chance for pupils to use digital media.	One to One Talk to a peer or teacher about the artwork made and share what you have enjoyed during the process, and what you like about the end result.	Show interest in and describe what they think about the work of others Take pleasure in the work they have created and see that it gives other people pleasure Understand how evaluating creative work <i>during</i> the process, as well as at the end, helps feed the process. Begin to take photographs and use digital media as a way to re- see work When looking at creative work express clear preferences and give some reasons

Year 2 – Knowledge & Understanding

By the end of Year 2 Children should be able to...

+-

Design & Making

By the end of Year 5 Children should be able to...

Confidently investigate and explore new materials, beginning to lead their own search for new experiences

Use acquired technical expertise, combined with beginning to listen and trust "instinct" to help make choices, to make work which effectively reflects ideas and intentions

Feel safe enough to take creative risks

another time and / or Balance time in Architecture and mark making

Architecture & Making

places where pupils diverge owning their

Explore architecture of culture, and make individual work in response to what is seen. Enable evolution of ideas through a combination of design through making and drawn inspiration. E.g.

Develop visual literacy skills: explore how we look at and *respond to* things people have made, and then include this awareness when making sculpture e.g. Inspired by anglo saxon houses

Continue with the key drawing exercises Drawing exercises

Explore the relationship of line, form and colour.

Drawing, Making, Colour

Follow a series of guided activities which each offer pupils an opportunity to make their own individual creative response. e.g. Inspired by Miro and Building a communal

drawing Explore sculptural ideas of

balance (physical and aesthetic) and creative risk taking and play, e.g. Making sculpture and drawing

Explore relationship between sculpture and design through a sketchbook project which takes film/literature/drama as its starting point and facilitates an open-ended sculptural exploration, with children working at their own pace and following their own journey e.g. Developing sketchbook work

Enable sketchbook work above to evolve and inform into a sculpture project. Combine and construct with a variety of materials, including modelling and paint, e.g. Supersized jewellery and Fabulous-fish

Explore scaling up drawings, bringing in all mark-making skills previously learnt, and using technique to provide opportunity to transform original, e.g. Flat yet sculptural drawing

Paint on new surfaces (e.g. stone, fabric, walls, floors and work collaboratively to produce images in new contexts, e.g Communal summer picnic drawing orTreasured fossils

human.				

Assessment Questions

Teachers should consider assessment as a holistic practice, which takes place during every art lesson through conversation with pupils:

- Tell me about that you are making and what inspired you
- What might you do next?
- Tell me about the materials and techniques you are using
- What have you discovered?
- How do you feel about the end result?
- What kinds of problems did you encounter and how did you get round them?
- Tell me about things you really liked or enjoyed
- What would you like to explore more of?
- What is the potential of what you have done? What could you do next?

Remember! "Creativity is a fragile process that is hard to measure and assess and should always be nurtured and supported"

Knowledge & Understanding

Formal

Each child should:

ethnicities

above and below

• Know the names of tools, techniques and formal elements (in pink

• Be happy to describe, interpret and explain the work, ideas and working

cultures and times, for different purposes. Be able to know and describe

practices of artists, craftspeople, architects and designers from all

the work of some artists, craftspeople, architects and designers,

including artists who are contemporary, female, and from various

• Be able to talk about the materials, techniques and processes they have

used, using an appropriate vocabulary. Describe processes used and

• Be able to demonstrate how to safely use some of the tools and

how they hope to achieve high quality outcomes

techniques they have chose to work with

Teachers should:

Recognise that in art, a more valuable and relevant learning experience comes from underpinning technical and formal knowledge with an experiential understanding about what it is to be a creative human.

Experiential

Each child should be given the opportunity to:

- Discover that art is subjective (we all have our own legitimate understanding)
- Experience the connection between brain, hand and eye
- Understand ideas can come through hands-on exploration
- Develop their knowledge of what different materials and techniques can offer the creative individual
- Work at different scales, alone and in groups
- Feel safe to take creative risks and follow their intuition (fed with skills knowledge) and define their own creative journey
- Share their journey and outcomes with others. Feel celebrated and feel able to celebrate others
