

Dear Parents and Carers,

I honestly can't believe there is only one week left before we head into our last term together! Where has the time gone? Hedgehogs class are looking forward to starting their transition sessions to Foxes class in June. They will visit Foxes class and meet their new teachers and friends. We will keep you updated !

This week

The children followed a set of clues to find an invitation from Queen Bee inviting us to an Ugly Bug Ball (next week). We carefully wrote our RSVPs in our very best handwriting, explaining how excited we were to attend the ball. We have also designed our masks/costumes that we will make next week for us to wear to the ball, too. In maths, the children have been composing and decomposing shapes so they can recognise that shapes can have other shapes within them- just as numbers can. We also had great fun during our breakdancing workshop, too.

Wow Words.

parading: walk/march somewhere often as part of a celebration

scaly: small hard plates that cover a body

Teeny Weeny: very small

royal: related to a king or queen

Polka dot: small spots that are regularly spaced out

request: to ask for something

Next week

The children will be preparing for our Ugly Bug Ball, writing a set of expectations for how the bugs should behave while attending the ball and also creating our masks based on our designs that we made this week. In maths, the children will be sharing and grouping different types of numbers including doubles and halves. We also have our half termly enrichment activity, which will involve a workshop with real life critters from around the world!

Best wishes,

The Hedgehog Team
