

Dear Parents and Carers,

We hope you had a good week. We can't believe it is almost the start of December and soon the children will have completed their first full term at school! This week your child will have come home with some words to practise for our Nativity. It would be great if you could help your child learn these at home.

This week

We have been celebrating our class puppet's 5th birthday! We have used our phonic knowledge to write lists, made birthday cards, baked some delicious cakes, made party hats, thrown a birthday party and played party games. In maths, we have been focusing on positional language and we enjoyed using an obstacle course to help us with our learning.

Next week

It is the start of the Christmas countdown! We will be learning about the Christmas story and making our own crowns. We will also be boarding the Newton Tony plane and jetting off on our next Faraway Friday!

Best wishes

The Hedgehog Team
